

## Preparation For Session 2 – Sharing Our Histories

A part of understanding where we are is to understand where we've been. Next week, we will be sharing how we each got to where we are now. What brought you to Unitarian Universalism? To the San Jose congregation? To the small group ministries program?

Please prepare some sort of pictorial representation of your life up until now: a collage, a time line, a map, or whatever else appeals to you. Focus especially upon your religious background, any additional factors that influenced your approach to religion, and major life transitions or crises.
